

# Wls-Flox

系統名	B6;129S-Wls <sup>tm1(flox)Smoc</sup>
SMOC番号	NM-CKO-00027
維持形態	Embryo cryopreservation

## 遺伝子の概要

Gene Symbol Wls	Synonyms	EVI; Gpr177; AI173978; AI987742; 5031439A09Rik
	NCBI ID	<a href="#">68151</a>
	MGI ID	<a href="#">1915401</a>
	Ensembl ID	<a href="#">ENSMUSG00000028173</a>
	Human Ortholog	WLS

## 説明

Mice homozygous for this conditional allele possess loxP sites flanking exon 3 of the targeted gene. When bred to mice that express Cre recombinase, the resulting offspring will have the exon encoding this gene deleted in the cre-expressing tissue(s).

**応用分野:** Psoriasis-like dermatitis

\*Literature published using this strain should indicate: Wls-Flox mice (Cat. NO. NM-CKO-00027) were purchased from Shanghai Model Organisms Center, Inc..
