

HCC1954

Strain Information

SMOC番号 NMC-230040

Cell Line HCC1954

維持形態 Validation of tumorigenic capacity completed

説明 Human breast cancer cell line

*Literature published using this strain should indicate: HCC1954 cell line (Cat. NO. NMC-230040) was purchased from Shanghai Model Organisms Center, Inc..

表現型データ

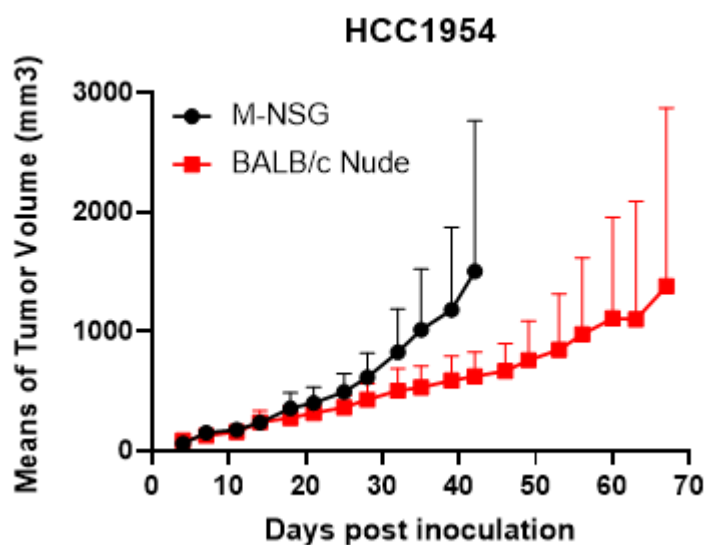

Fig1. Tumor growth curve of HCC1954 xenograft model (n=5)

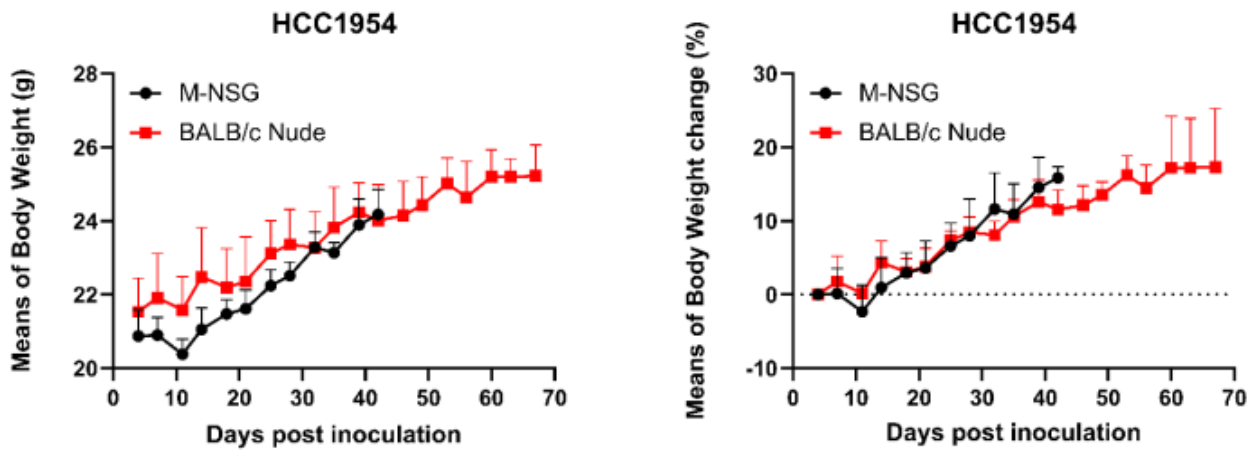

Fig2. Body weight change of HCC1954 xenograft model (n=5)

*Wild-type cell lines are not for sale, and only applied to construction of tumor bearing mice and in-vivo efficacy studies.
