

Tsc2-Flox(2)

系統名	C57BL/6Smoc- <i>Tsc2</i> ^{em1(flox)Smoc}
SMOC番号	NM-CKO-241018
維持形態	Developing

遺伝子の概要

Gene Symbol Tsc2	Synonyms	Tcs2; Nafld
	NCBI ID	22084
	MGI ID	102548
	Ensembl ID	ENSMUSG00000002496
	Human Ortholog	TSC2

説明

These strains carry loxP sites flanking exon 4-5 of *Tsc2* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Tsc2* gene.

*Literature published using this strain should indicate: *Tsc2*-Flox(2) mice (Cat. NO. NM-CKO-241018) were purchased from Shanghai Model Organisms Center, Inc..
