

Krt79-Flox

系統名	C57BL/6Smoc- <i>Krt79</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Krt79	Synonyms	BC031593
	NCBI ID	223917
	MGI ID	2385030
	Ensembl ID	ENSMUSG00000061397
	Human Ortholog	KRT79

説明

These mice carry loxP sites flanking target exons of Krt79 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Krt79 gene.

*Literature published using this strain should indicate: Krt79-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
