

Axin2-Flox

系統名	C57BL/6Smoc- <i>Axin2</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Axin2	Synonyms	Axi1, Axil, Conductin
	NCBI ID	12006
	MGI ID	1270862
	Ensembl ID	ENSMUSG00000000142
	Human Ortholog	AXIN2

説明

These mice carry loxP sites flanking target exons of Axin2 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Axin2 gene.

*Literature published using this strain should indicate: Axin2-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
