

Il15-Flox

| | |
|--------|---|
| 系統名 | C57BL/6Smoc- <i>Il15</i> ^{em(flox)/Smoc} |
| SMOC番号 | NM-CKO-220626 |
| 維持形態 | Sperm cryopreservation |

遺伝子の概要

| | | |
|---------------------|-----------------------|------------------------------------|
| Gene Symbol Il15 | Synonyms | IL-15; AI503618 |
| | NCBI ID | 16168 |
| | MGI ID | 103014 |
| | Ensembl ID | ENSMUSG00000031712 |
| | Human Ortholog | IL15 |

説明

These mice carry loxP sites flanking exon 4 of *Il15*. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Il15* gene.

*Literature published using this strain should indicate: *Il15*-Flox mice (Cat. NO. NM-CKO-220626) were purchased from Shanghai Model Organisms Center, Inc..
