

Ammecr1-Flox

系統名	C57BL/6Smoc- <i>Ammecr1</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Ammecr1	Synonyms	6230420G18Rik
	NCBI ID	56068
	MGI ID	1860206
	Ensembl ID	ENSMUSG00000042225
	Human Ortholog	AMMECR1

説明

These mice carry loxP sites flanking target exons of Ammecr1 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Ammecr1 gene.

*Literature published using this strain should indicate: Ammecr1-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
