

Lat2-Flox

系統名	C57BL/6Smoc- <i>Lat2</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Lat2	Synonyms	LAB, NTAL, WSCR5, Wbscr5, Wbscr15, AW125574
	NCBI ID	56743
	MGI ID	1926479
	Ensembl ID	ENSMUSG00000040751
	Human Ortholog	LAT2

説明

These mice carry loxP sites flanking target exons of *Lat2* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Lat2* gene.

*Literature published using this strain should indicate: Lat2-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
