

Cyp4v3-Flox

系統名	C57BL/6Smoc- <i>Cyp4v3</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Cyp4v3	Synonyms	Cyp4v2, AU043077, AW111961
	NCBI ID	102294
	MGI ID	2142763
	Ensembl ID	ENSMUSG00000079057
	Human Ortholog	CYP4V2

説明

These mice carry loxP sites flanking target exons of Cyp4v3 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Cyp4v3 gene.

*Literature published using this strain should indicate: Cyp4v3-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
