

Bmp15-Flox

系統名	C57BL/6Smoc- <i>Bmp15</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Bmp15	Synonyms	Bmp-15, C86824, C87336, GDF-9B, AU015375, AU018861, AU021453
	NCBI ID	12155
	MGI ID	1316745
	Ensembl ID	ENSMUSG00000023279
	Human Ortholog	BMP15

説明

These mice carry loxP sites flanking target exons of Bmp15 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Bmp15 gene.

*Literature published using this strain should indicate: Bmp15-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
