

Slc18a3-Flox

系統名	C57BL/6Smoc- <i>Slc18a3</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Slc18a3	Synonyms	VAT, VACHT
	NCBI ID	20508
	MGI ID	1101061
	Ensembl ID	ENSMUSG00000100241
	Human Ortholog	SLC18A3

説明

These mice carry loxP sites flanking target exons of Slc18a3 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Slc18a3 gene.

*Literature published using this strain should indicate: Slc18a3-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
