

Slc6a3-Flox

系統名	C57BL/6Smoc- <i>Slc6a3</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Slc6a3	Synonyms	DAT, Dat1
	NCBI ID	13162
	MGI ID	94862
	Ensembl ID	ENSMUSG00000021609
	Human Ortholog	SLC6A3

説明

These mice carry loxP sites flanking target exons of Slc6a3 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Slc6a3 gene.

*Literature published using this strain should indicate: Slc6a3-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
