

Slc6a4-Flox

系統名	C57BL/6Smoc- <i>Slc6a4</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Slc6a4	Synonyms	Htt, Sert, 5-HTT, AI323329
	NCBI ID	15567
	MGI ID	96285
	Ensembl ID	ENSMUSG00000020838
	Human Ortholog	SLC6A4

説明

These mice carry loxP sites flanking target exons of *Slc6a4* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Slc6a4* gene.

*Literature published using this strain should indicate: *Slc6a4*-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
