

Slc17a8-Flox

系統名	C57BL/6Smoc- <i>Slc17a8</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Slc17a8	Synonyms	Vglut3, BC042593
	NCBI ID	216227
	MGI ID	3039629
	Ensembl ID	ENSMUSG00000019935
	Human Ortholog	SLC17A8

説明

These mice carry loxP sites flanking target exons of Slc17a8 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Slc17a8 gene.

*Literature published using this strain should indicate: Slc17a8-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
