

Idua-Flox

系統名	C57BL/6Smoc- <i>Idua</i> ^{em1(flox)Smoc}
SMOC番号	NM-CKO-2107947
維持形態	Sperm cryopreservation

遺伝子の概要

Gene Symbol <i>Idua</i>	Synonyms	6030426D08
	NCBI ID	15932
	MGI ID	96418
	Ensembl ID	ENSMUSG00000033540
	Human Ortholog	IDUA

説明

These mice carry loxP sites flanking exon 4-13 of *Idua* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Idua* gene.

*Literature published using this strain should indicate: *Idua*-Flox mice (Cat. NO. NM-CKO-2107947) were purchased from Shanghai Model Organisms Center, Inc..
