

Col6a1-Flox

系統名	C57BL/6Smoc- <i>Col6a1</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Col6a1	Synonyms	Col6a-1, AI747156
	NCBI ID	12833
	MGI ID	88459
	Ensembl ID	ENSMUSG00000001119
	Human Ortholog	COL6A1

説明

These mice carry loxP sites flanking target exons of Col6a1 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Col6a1 gene.

*Literature published using this strain should indicate: Col6a1-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
