

Chrnb2-Flox

系統名	C57BL/6Smoc- <i>Chrnb2</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Chrnb2	Synonyms	Acrb2, Acrb-2, [b]2-nAChR, C030030P04Rik
	NCBI ID	11444
	MGI ID	87891
	Ensembl ID	ENSMUSG00000027950
	Human Ortholog	CHRN2

説明

These mice carry loxP sites flanking target exons of *Chrnb2* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Chrnb2* gene.

*Literature published using this strain should indicate: *Chrnb2*-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
