

Gins2-Flox

系統名	C57BL/6Smoc- <i>Gins2</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Gins2	Synonyms	Pfs2, AI323585, 2210013I18Rik, 4833427B12Rik
	NCBI ID	272551
	MGI ID	1921019
	Ensembl ID	ENSMUSG00000031821
	Human Ortholog	GINS2

説明

These mice carry loxP sites flanking target exons of *Gins2* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Gins2* gene.

*Literature published using this strain should indicate: *Gins2*-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
