

Anapc11-Flox

系統名	C57BL/6Smoc- <i>Anapc11</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Anapc11	Synonyms	R75218, 1110011119Rik
	NCBI ID	66156
	MGI ID	1913406
	Ensembl ID	ENSMUSG00000025135
	Human Ortholog	ANAPC11

説明

These mice carry loxP sites flanking target exons of Anapc11 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Anapc11 gene.

*Literature published using this strain should indicate: Anapc11-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
