

Dusp10-Flox

系統名	C57BL/6Smoc- <i>Dusp10</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Dusp10	Synonyms	MKP5, MKP-5, AI158871, 2610306G15Rik
	NCBI ID	63953
	MGI ID	1927070
	Ensembl ID	ENSMUSG00000039384
	Human Ortholog	DUSP10

説明

These mice carry loxP sites flanking target exons of *Dusp10* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Dusp10* gene.

*Literature published using this strain should indicate: *Dusp10*-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
