

Sncaip-Flox

系統名	C57BL/6Smoc- <i>Sncaip</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Sncaip	Synonyms	SYPH1, BB104594, 2810407015Rik, 4933427B05Rik
	NCBI ID	67847
	MGI ID	1915097
	Ensembl ID	ENSMUSG00000024534
	Human Ortholog	SNCAIP

説明

These mice carry loxP sites flanking target exons of Sncaip gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Sncaip gene.

*Literature published using this strain should indicate: Sncaip-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
