

Itga2b-Flox

系統名	C57BL/6Smoc- <i>Itga2b</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Itga2b	Synonyms	CD41, CD41B, GpIIb, AI172977, alphaIIb
	NCBI ID	16399
	MGI ID	96601
	Ensembl ID	ENSMUSG00000034664
	Human Ortholog	ITGA2B

説明

These mice carry loxP sites flanking target exons of *Itga2b* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Itga2b* gene.

*Literature published using this strain should indicate: *Itga2b*-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
