

Myl12a-Flox

系統名	C57BL/6Smoc- <i>Myl12a</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Myl12a	Synonyms	C80200, AI838292, 2900073G15Rik
	NCBI ID	67268
	MGI ID	1914518
	Ensembl ID	ENSMUSG00000024048
	Human Ortholog	MYL12A

説明

These mice carry loxP sites flanking target exons of Myl12a gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Myl12a gene.

*Literature published using this strain should indicate: Myl12a-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
