

Castor1-Flox

系統名	C57BL/6Smoc- <i>Castor1</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Castor1	Synonyms	Gatsl3, 2410008K03Rik
	NCBI ID	71962
	MGI ID	1919212
	Ensembl ID	ENSMUSG00000020424
	Human Ortholog	CASTOR1

説明

These mice carry loxP sites flanking target exons of Castor1 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Castor1 gene.

*Literature published using this strain should indicate: Castor1-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
