

Cdyl2-Flox

系統名	C57BL/6Smoc- <i>Cdyl2</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Cdyl2	Synonyms	Gm20194, 1700029M19Rik, 4930453I21Rik
	NCBI ID	75796
	MGI ID	1923046
	Ensembl ID	ENSMUSG00000031758
	Human Ortholog	CDYL2

説明

These mice carry loxP sites flanking target exons of *Cdyl2* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Cdyl2* gene.

*Literature published using this strain should indicate: *Cdyl2*-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
