

Fgfr1op2-Flox

系統名	C57BL/6Smoc- <i>Fgfr1op2</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Fgfr1op2	Synonyms	1500031J01Rik
	NCBI ID	67529
	MGI ID	1914779
	Ensembl ID	ENSMUSG00000040242
	Human Ortholog	FGFR1OP2

説明

These mice carry loxP sites flanking target exons of Fgfr1op2 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Fgfr1op2 gene.

*Literature published using this strain should indicate: Fgfr1op2-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
