

Snca-Flox

系統名	C57BL/6Smoc- <i>Snca</i> ^{tm1(flox)Smoc}
SMOC番号	NM-CKO-231293
維持形態	Sperm cryopreservation

遺伝子の概要

Gene Symbol Snca	Synonyms	NACP; alphaSYN; alpha-Syn
	NCBI ID	20617
	MGI ID	1277151
	Ensembl ID	ENSMUSG00000025889
	Human Ortholog	SNCA

説明

These strains carry loxP sites flanking exon 3-4 of Snca gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Snca gene.

*Literature published using this strain should indicate: Snca-Flox mice (Cat. NO. NM-CKO-231293) were purchased from Shanghai Model Organisms Center, Inc..
