

Arcn1-Flox

系統名	C57BL/6Smoc- <i>Arcn1</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Arcn1	Synonyms	nur17, 4632432M07Rik
	NCBI ID	213827
	MGI ID	2387591
	Ensembl ID	ENSMUSG00000032096
	Human Ortholog	ARCN1

説明

These mice carry loxP sites flanking target exons of Arcn1 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Arcn1 gene.

*Literature published using this strain should indicate: Arcn1-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
