

Hnf4aos-Flox

系統名	C57BL/6Smoc- <i>Hnf4aos</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Hnf4aos	Synonyms	0610008F07Rik
	NCBI ID	68314
	MGI ID	1915564
	Ensembl ID	ENSMUSG00000046840
	Human Ortholog	HNF4AOS

説明

These mice carry loxP sites flanking target exons of Hnf4aos gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Hnf4aos gene.

*Literature published using this strain should indicate: Hnf4aos-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
