

Nprl3-Flox

系統名	C57BL/6Smoc- <i>Nprl3</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Nprl3	Synonyms	Aag, Phg, Mare, HS-26, HS-40, Prox1, CGTHBA, m(alpha)RE
	NCBI ID	17168
	MGI ID	109258
	Ensembl ID	ENSMUSG00000020289
	Human Ortholog	NPRL3

説明

These mice carry loxP sites flanking target exons of Nprl3 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Nprl3 gene.

*Literature published using this strain should indicate: Nprl3-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
