

Zmpste24-Flox

系統名	C57BL/6Smoc- <i>Zmpste24</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Zmpste24	Synonyms	MADB, FACE1, STE24, Face-1, Ste24p, D030046F19, A530043O15Rik
	NCBI ID	230709
	MGI ID	1890508
	Ensembl ID	ENSMUSG00000043207
	Human Ortholog	ZMPSTE24

説明

These mice carry loxP sites flanking target exons of *Zmpste24* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Zmpste24* gene.

*Literature published using this strain should indicate: *Zmpste24*-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
