

Pcdh10-Flox

系統名	C57BL/6Smoc- <i>Pcdh10</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Pcdh10	Synonyms	OL-pc, mKIAA1400, 6430521D13Rik, 6430703F07Rik
	NCBI ID	18526
	MGI ID	1338042
	Ensembl ID	ENSMUSG00000049100
	Human Ortholog	PCDH10

説明

These mice carry loxP sites flanking target exons of Pcdh10 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Pcdh10 gene.

*Literature published using this strain should indicate: Pcdh10-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
