

Abraxas1-Flox

系統名	C57BL/6Smoc- <i>Abraxas1</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Abraxas1	Synonyms	Ccdc98, Fam175a, AI506069, AL024423, AV118690, 3830405G04Rik, 5630400M01Rik
	NCBI ID	70681
	MGI ID	1917931
	Ensembl ID	ENSMUSG00000035234
	Human Ortholog	ABRAXAS1

説明

These mice carry loxP sites flanking target exons of *Abraxas1* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Abraxas1* gene.

*Literature published using this strain should indicate: *Abraxas1*-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
