

Casp8ap2-Flox

系統名	C57BL/6Smoc- <i>Casp8ap2</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Casp8ap2	Synonyms	FLASH, D4Ert659e
	NCBI ID	26885
	MGI ID	1349399
	Ensembl ID	ENSMUSG00000028282
	Human Ortholog	CASP8AP2

説明

These mice carry loxP sites flanking target exons of *Casp8ap2* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Casp8ap2* gene.

*Literature published using this strain should indicate: *Casp8ap2*-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
