

Foxn1-Flox

系統名	C57BL/6Smoc- <i>Foxn1</i> ^{em1(flox)Smoc}
SMOC番号	TBD
維持形態	Developing

遺伝子の概要

Gene Symbol Foxn1	Synonyms	nu, Whn, nude, Fkh19, Hfh11, HFH-11, D11Bhm185e
	NCBI ID	15218
	MGI ID	102949
	Ensembl ID	ENSMUSG00000002057
	Human Ortholog	FOXN1

説明

These mice carry loxP sites flanking target exons of Foxn1 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Foxn1 gene.

*Literature published using this strain should indicate: Foxn1-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..
