

Met-Flox(2)

系統名	C57BL/6Smoc- <i>Met</i> ^{em2(flox)Smoc}
SMOC番号	NM-CKO-225007
維持形態	Sperm cryopreservation

遺伝子の概要

Gene Symbol Met	Synonyms	HGF; HGFR; Par4; c-Met; AI838057
	NCBI ID	17295
	MGI ID	96969
	Ensembl ID	ENSMUSG00000009376
	Human Ortholog	MET

説明

These mice carry loxP sites flanking exon 1-2 of Met gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Met gene.

*Literature published using this strain should indicate: Met-Flox(2) mice (Cat. NO. NM-CKO-225007) were purchased from Shanghai Model Organisms Center, Inc..
