

# MSTO-211H

## Strain Information

SMOC番号 NM-F05

Cell Line MSTO-211H

維持形態 Validation of tumorigenic capacity

説明 Human lung cancer cell line

\*Literature published using this strain should indicate: MSTO-211H cell line (Cat. NO. NM-F05) was purchased from Shanghai Model Organisms Center, Inc..

## 表現型データ

\*Wild-type cell lines are not for sale, and only applied to construction of tumor bearing mice and in-vivo efficacy studies.
