

A375

Strain Information

SMOC番号	NM-KH06
Cell Line	A375
維持形態	Validation of tumorigenic capacity completed
説明	A375 is a cell line exhibiting epithelial morphology that was isolated from the skin of a 54-year-old, female patient with malignant melanoma. *Literature published using this strain should indicate: A375 cell line (Cat. NO. NM-KH06) was purchased from Shanghai Model Organisms Center, Inc..

表現型データ

The A-375 (A375) cell line is human cell derived from the skin of a female patient with malignant melanoma.
